

FROM DULL TO VIBRANT FIBERGLASS IN ONE EASY STEP

Gelcoat, the shiny outer layer of fiberglass, becomes porous as it ages, making it a magnet for dirt and stains. Fortunately, there's Fiberglass Powder Cleaner & Stain Remover from BoatLIFE. The biodegradable formula is simple to use without needing a lot of elbow grease, yet delivers showroom-quality results.

Made in the USA, Fiberglass Powder Cleaner & Stain Remover is a powerful cleaner that won't scratch delicate finishes. Ideal for textured and non-skid surfaces, it helps in the removal of oxidation, dirt, rust spots, waterline scum, scuff marks, black streaks and other tough marine stains.

Using Fiberglass Powder Cleaner & Stain Remover is fast and easy. After washing the boat surface to remove dust and dirt, the powdered formula is sprinkled on and worked with a sponge or scrub brush. It can be rinsed with fresh or saltwater. Once dry, the cleaned section is ready for waxing. A video is viewable at www.youtube.com/watch?v=47cIvWSO5lQ. A 26 oz. container of BoatLIFE Fiberglass Powder Cleaner & Stain Remover costs \$20.38; 64 oz. is \$41.61.
