SANITIZING HANDS & SURFACES IS AS IMPORTANT NOW AS EVER

It's perhaps even more important now to keep hands and surfaces disinfected than it was six months ago. Unlike alcohol-based cleaners, Sanitizer from Life Industries keeps working after it dries. It remains on hard surfaces, reducing bacteria for up to a week. The unique formula is a cost-effective, long-term solution that reduces the need for continual reapplication.

Life Industries Sanitizer contains the antiseptic compound benzalkonium chloride, or BZK. This powerful formula is safe to use, but potent against bacteria. BZK is approved by the FDA and CDC as an alternative to common alcohol-based disinfectants.

It's perfect for use on myriad surfaces around boats, RVs or aircraft, as well as at home, the office or factory. Available in 4, 8, 12, 16 and 32 fl. oz. spray bottles, plus 16 fl. oz and 1 gal. refill bottles, Life Industries Sanitizer can be custom labeled. Prices start at \$2.63.
